

[illegible]

**Instructions:**

Select a story from the German in the Afternoon YouTube channel or Frau Schechtman's YouTube channel. Try to choose one that feels like it's the right level – you understand most of it, but hear some new words, too! Record the date, the title, the source, and how much you understood in the German Story Listening Log. **Turn in the log when you return to school!** You may choose to do an activity after watching the story, but you do not have to. Remember that while these stories are meant to teach you German, they should be enjoyable! If it is too frustrating, try selecting a different story. *Viel Spaß!!* (Have fun!!)

**Title:** Copy the title neatly in German. Pay attention to capitalization!

**Source:** G = German in the Afternoon on YouTube

**How much did you understand?**

5 = All of the story
4 = Most of the story
3 = About half of the story
2 = Some of the story
1 = A little of the story

**What to do after the story?**

The story itself is the best way to learn! However, some things that can help cement the language from the story could be:

- ✱ Retell the story to someone in English.
- ✱ Write a summary of the story in English.
- ✱ Draw your favorite scene from the story. Remember to put the title on it!
- ✱ Watch the video again. Pause it to draw pictures and label them in German and English.
- ✱ Watch the video again and read along. You will have to email me to request the text for most of the stories. Unless they are copyright-free, I cannot post them publicly. But I'm happy to email you a copy!
- ✱ Watch the video again and try to act out the story as you listen. Maybe use costumes & props! Have fun!

**If you do any written work, write your name on it and attach it to your log, so you can turn it all in when we are back in school!**
